*** MESSAGE FROM STEVE***

Just spoke to Eben Shapiro.

1. He says he was told that tomorrow Waxman will announce hearings for early next week, dealing with B&W.

2. Synar told Eben he is considering attaching his FDA bill to other legislation this year. When Eben asked if he meant health care, Synar refused to say.

3. Eben thinks, based on his conversation, that in the future there will be a focus on "inconsistencies" in testimony. B&W's Saundifer was specifically mentioned.
